### PROFESSIONAL SUMMARY

Flutter Developer with hands-on industry experience building scalable, production-ready cross-platform mobile apps, including a Play Store app serving 100+ real-world users. Skilled in Flutter, Dart, Clean Architecture, BLoC, REST API integration, Firebase, and Bluetooth Low Energy (BLE) device communication. Experienced in backend development with Spring Boot, PostgreSQL, and AWS (EC2, RDS, S3), enabling end-to-end ownership from UI to cloud infrastructure. Strong foundation in OOP, SOLID principles, and Git-based Agile workflows, with 200 DSA problems solved on LeetCode.

### TECHNICAL SKILLS

- **Languages & Frameworks:** Flutter, Dart, Java
- **Architecture & State Management:** Clean Architecture, MVVM, Repository Pattern, BLoC, SOLID Principles, OOP, GetIt (DI), Go\_Router
- **Networking & Storage:** REST APIs, Dio, HTTP, JSON, Postman, Firebase, Hive, SharedPreferences, PostgreSQL, Offline Storage
- **Connectivity & Backend:** Bluetooth Low Energy (BLE), Spring Boot, AWS EC2, AWS RDS, AWS S3
- **Tools & Deployment:** Git, GitHub, Android Studio, Google Play Store Publishing, Payment Gateway Integration

### EXPERIENCE

#### Flutter Developer Intern

March 2026 – Present

Quick Leap Innovations Private Limited | Bengaluru

- Built and maintained production-ready cross-platform mobile applications using Flutter and Dart, designing responsive UI screens and reusable widgets while improving performance through targeted bug fixes and optimization.
- Integrated REST APIs, analytics tracking, and Bluetooth/IoT device communication to enable real-time data exchange between the mobile app and connected hardware.
- Developed core product features — Ride History, Speed Lock System, and Parental Control modules — managing application state and business logic end-to-end.
- Collaborated within an Agile team using Git workflows and pull requests, contributing to code reviews and iterative, scalable mobile app delivery.

### PROJECTS

#### Mantra Audio — Spiritual Audio Streaming Platform (Live on Google Play Store)

[App Link](#)

Flutter | Dart | Spring Boot | PostgreSQL | AWS EC2/RDS/S3 | BLoC | Dio | Clean Architecture | REST APIs | Localization

- Architected and shipped a production-ready spiritual audio streaming app end-to-end, independently building both the Flutter frontend and the Spring Boot backend.
- Designed and deployed scalable REST APIs with Spring Boot and PostgreSQL on AWS EC2/RDS, and integrated AWS S3 for secure audio storage and media streaming.
- Implemented the Flutter app using Clean Architecture, BLoC, and the Repository Pattern with Dio for networking, ensuring maintainable and testable state management.
- Built playlist management, playback controls, and progress tracking with multi-language localization, plus centralized exception handling and dependency injection for a modular, production-grade codebase.

#### MarkMe — College ERP & Smart Attendance System (100+ Active Students)

[App Link](#)

Flutter | Firebase | BLoC | Clean Architecture | GetIt | Go\_Router

- Developed a scalable ERP system with separate Student, Teacher, and Admin applications to streamline attendance management and academic workflows.
- Deployed the system in a live production environment at USBM, Bhubaneswar, serving 600+ students with reliable daily usage.
- Implemented real-time attendance tracking using Firebase, ensuring accurate, low-latency data sync across all three applications.
- Shipped 9+ Play Store updates, iterating on stability, performance, and feature improvements based on real-world usage feedback.
- Applied Clean Architecture with GetIt for dependency injection and Go\_Router for navigation, keeping the codebase modular and scalable across three apps.

### AWARDS & CERTIFICATIONS

- Winner, BPUT State-Level Mobile App Development Competition [Link](#)
- Completed 100 Days of LeetCode Challenge (Data Structures & Algorithms); solved 200+ DSA problems on LeetCode [Link](#)
- Certification in Java Programming [Link](#)
- Certification in Android App Development [Link](#)
- Certification in Flutter Mobile App Development [Link](#)

### EDUCATION

#### B.Tech, Computer Science and Technology

CGPA: 8.8

GITA Autonomous College, Bhubaneswar | Semester 6 GPA: 8.92

#### 12th Grade (PCM with Computer Science)

Score: 92/100

Sainik School, Bhubaneswar
