

RUDRA NARAYAN RATH

FLUTTER DEVELOPER

+91-9777335919 | rudra.narayan.rath.01@gmail.com | Portfolio Link | [GitHub](#)

Summary

Flutter Developer with hands-on experience building and deploying production-ready mobile applications on the Play Store, with an approved Apple Developer account for App Store publishing. Strong foundation in Dart, Firebase/Firestore, REST APIs, and Clean Architecture. Experienced in state management (BLoC/Riverpod), working with both SQL and NoSQL databases, and translating Figma designs into responsive, user-centric applications.

Skills

Languages: Dart, Kotlin, Java, SQL, JavaScript, Python

Frameworks & Technologies: Flutter, Firebase (Authentication, Firestore, Cloud Functions), REST APIs, Jetpack Compose,

Architecture & State Management: Clean Architecture, MVVM, BLoC, Riverpod, Cubit, Repository Pattern

Databases: Firebase Firestore (NoSQL), SQLite, MySQL, Hive

Tools & Platforms: Git & GitHub, Figma, VS Code, Postman, Razorpay Integration, Google Play Console, Apple Developer Console

Experience

Flutter Developer Intern

March 2025 - Aug 2025

Igurus Consultancy Services (REMOTE)

- Developed a full-scale mobile application from scratch for **Phadibaba Agrotech Private Limited**, designed to support 1000s of cattle farmers.
- Implemented a secure **authentication system** with proper user validation and session management.
- Designed and built a dynamic **product catalogue module** showcasing *VIPROMI* cattle feed products.
- Engineered a custom **nutrition optimization algorithm** that:
 - Analyses existing cattle feed consumption
 - Calculates required protein intake
 - Estimates potential milk production
 - Identifies protein deficiencies
 - Recommends suitable company products to bridge nutritional gaps

Projects

MarkMe – College Management & Smart Attendance System

Flutter | Firebase | BLoC | Clean Architecture | Bluetooth

☞ Teacher App: <https://play.google.com/store/apps/details?id=com.oxiionglobal.markme.student>

☞ Student App: <https://play.google.com/store/apps/details?id=com.oxiionglobal.markme.teacher>

- Architected and developed a **three-application ecosystem**: Teacher App, Student App, and Admin Panel for complete academic workflow management.
- Independently published the Teacher and Student applications on the Play Store through my personal Google Play Developer Console.
- Implemented secure **role-based authentication** using Firebase Authentication with structured onboarding (college ID, branch, role).
- Built a **Bluetooth-based proximity attendance system** enabling session-based validation of student presence.
- Designed real-time **subject-wise attendance tracking and analytics dashboards**.
- Engineered a scalable **Firestore database architecture** supporting multi-role and multi-branch institutional access.
- Structured the entire system using **Clean Architecture and BLoC state management** for modularity and long-term scalability.
- Selected for institutional implementation at **USBM College (600+ students)** with deployment planned by March 2026.

Awards & Certifications

- Runner-Up, BPUT Mobile App Development Competition ([Certificate Link](#))
- Completed **100 Days of LeetCode Challenge** (Data Structures & Algorithms practice) ([Certificate Link](#))
- Certification in **JAVA** ([Certificate Link](#))
- Certification in **Android App Development** ([Certificate Link](#))
- Certification in **Flutter Mobile App Development** ([Certificate Link](#))

Education

12th: Sainik School Bhubaneswar
PCM with Computer Science

Percentage: 78%
C.Science: 92/100

B.Tech: Computer Science and Technology
PCM with Computer Science

C.G.P.A: 8.7
Semester 5: 8.92
